

**Assistive Technology at NC State - OIT-Access-Tech**

Have you ever been curious about what assistive technology your students with disabilities are using on campus? Come and learn about the different assistive technology used at NC State and how your students are interacting with your classroom materials.

In this workshop you will learn:

1. About the different types of assistive technology used at NC State
2. The basics of the most frequently used assistive technologies on campus
3. How students use assistive technology to access your class materials
4. A few tips/considerations when purchasing or creating class materials so that they are accessible for assistive technologies
